Disposal

FOIAb3b1

The Center has destroyed 55 cubic feet of miscellaneous [REDACTED] in supplemental distribution files. Authorization was given in a memo dated 30 April 1956 from the ARO of [REDACTED]. It is estimated that the overall savings would be 75 cubic feet per year.

General

The Chief, Fire Department of [REDACTED] examined and operated the fire extinguishers in the Center. A new fire extinguisher will be installed in the Center for the use of wood and paper fires.

A group of projects undertaken by the Center as of 10 January 1956 are listed as follows:

Projects Completed

1. Identified and established a complete "Record Set" of all finished intelligence in Supplemental Distribution.
2. Rearranged the file cabinets, housing information reports, to make more space available for map negatives. Boxed information reports in Supplemental Distribution, over the numbers to be furnished by the Center.

3. Screened and rearranged the Center subject file to conform with the Agency Filing Manual.
